All our animals have the highest standard of living conditions and care. Despite this, we cannot stress enough the importance of hand washing following contact with any animal, anywhere. Hand washing is the number one way to prevent illness and should be practiced after being in contact with the ponies and farm animals! This is the recommendation of state and federal health departments, soap and water are recommended over baby wipes and sanitizing hand gels. We also recommend that toys and pacifiers be removed from children before they go near the horses, this ensures that these items stay clean.

Our handler always walks next to the horse with one arm within reach of the child. This provides added security for the child and also means that we are interacting with the child during their ride, this provides an educational advantage as the children are in direct contact with the handler and are free to ask any questions regarding the horses care and training.

Care is taken at all times to ensure the safety of both the children and the horses. Penryn Oak Stables handlers are careful to instruct children on how to behave near and on the horses.

Thank you for choosing Penryn Oak Stables

I have taken the time to read and understand the release and wavier online or request a copy before I book a party.

I understand that a release/wavier must be signed by the parent of each child as well as each adult attending the party. These releases are available online and may be printed signed and faxed to 916-630-0879 at least two days before the party or you may bring them with you to the party.

I understand that if any changes are made to the food/drink or cake within 7 days of the party I'm responsible for any additional cost.
